

C.V.

Dr. João António Santos
3014 English Oak Circle
Stockton, CA 95209
Phone: (209) 888-5425
Email: joao.santos@sjsu.edu

Research Interests

Glacial and Fluvial Geomorphology, Paleoclimatology and Remote Sensing.

Education

-PhD, Geography, University of Coimbra (Portugal, Europe) (Grade: Approved with Distinction). 2009. Dissertation: Fluvial Geomorphology and Quaternary Evolution of the Mondego River Basin, Central Portugal.

-MA, Geography, Kent State University (Ohio, U.S.A) (GPA: 3.9). 2003. Thesis: Glacial Geomorphology and Sedimentology of the Kent Interlobate Complex, NE Ohio.

-BS, Geography, Brigham Young University (Utah, U.S.A) (GPA: 3.6). 2001.

Work Experience

-Lecturer, Department of Geology, San Jose State University (California, U.S.A), August 2015 to Present.

Lecturer in the following courses:

- Environmental Geology
- Natural Hazards
- Geology for Engineers
- Introduction to Earth Science

-Adjunct Instructor, Department of Geography, South Dakota State University (South Dakota, U.S.A), January 2013 to Present.

Instructor in the following courses:

- Physical Geography: Weather and Climate (online)
- Physical Geography: Natural Landscapes (online)

-Adjunct Lecturer, Department of Geography, Bridgewater State University (Massachusetts, U.S.A), September 2014 to June 2015.

Lecturer in the following courses:

- Environmental Geography
- Climatology
- Seminar: Glaciers and Climate Change

-Post-Doctoral Fellow, University of Coimbra (Portugal, Europe) and Oklahoma State University (Oklahoma, U.S.A), January 2010 to January 2013. Post-Doctoral Project: Holocene Glacial and Climatic History of College Fjord, South-Central Alaska.

-Adjunct Instructor, Department of Earth Science, Utah Valley University (Utah, U.S.A), January 2011 to May 2011.

Instructor in the following courses:

- Introduction to (Physical) Geology
- World Regional Geography

-Graduate Research Assistant in Glacial and Fluvial Geomorphology, Department of Geography, University of Coimbra (Portugal, Europe), September 2004 to September 2008.

-Visiting Instructor, Catholic University of Braga (Portugal, Europe), Spring Semester of 2006.

Instructor in the following course:

- Remote Sensing and GIS

-Visiting Instructor, Department of Geography, Brigham Young University (Utah, U.S.A), Spring Semester of 2003.

Instructor in the following course:

- Geomorphology

-Graduate Teaching Assistant, Department of Geography, Kent State University (Ohio, U.S.A), August 2001 to December 2002.

Graduate Teaching Assistant in the following courses:

- Introduction to Geography
- Physical Geography
- Climatology
- Geography of Asia

-Teaching Assistant and Weather Observer, Department of Geography, Brigham Young University (Utah, U.S.A), August 1999 to May 2001.

Teaching Assistant in the following courses:

- Physical Geography
- World Regional Geography

Weather Observer:

- Daily weather measurement (temperature, humidity, atmospheric pressure, wind speed and direction, evaporation, precipitation, snowfall and snow depth), observation (cloud type and sky conditions) and report (National Weather Service, ABC and NBC television stations).

-Quality Department Assistant Manager, Siemens (Portugal, Europe), July 1997 to September 1997.

Professional Conferences Presentations

-The Annual Conference (2019) of the Cordilleran Section of the Geological Society of America. Presentation: Distinguishing diamictons using till macrofabric and grain size analysis: A case study in the northern Serra do Gêres Mountains, NW Iberian Peninsula.

-The Annual Conference (2017) of the Geological Society of America. Presentation: Till Macrofabric Analysis of Glacial Deposits in the southern Serra do Gerês Mountains, NW Iberian Peninsula.

-The 1st International Conference (2016) on Research for Sustainable Development in Mountains Regions (X European Mountain Convention). Presentation: Macrofabric analysis in relict rock-glaciers, Cantabrian Mountains, Northwestern Spain.

-The Annual Conference (2016) of the Cordilleran Section of the Geological Society of America. Presentation: Till Fabric and Grain Size Analysis of Cape Cod Bay Lobe Glacial Deposits in Eastern Plymouth County, Eastern Massachusetts.

-The Annual Meeting (2016) of the Association of American Geographers. Presentation: Genesis of Glacial Sediments in the Gerês Mountains of Northwestern Portugal and Northwestern Spain.

-The 5th Conference (2015) of the Iberian Section of the International Permafrost Association. Presentation: Estudio de la estructura interna de un glaciar rocoso relicto en la Sierra de Sentiles, San Isidro, mediante el análisis de fábrica, Cordillera Cantábrica, España.

-The Annual Conference (2015) of the Northeastern Section of the Geological Society of America. Presentation: Till Fabric Analysis and Origin of Late Quaternary Moraines in the Serra da Peneda Mountains, NW Portugal.

-The Annual Conference (2015) of the Northeastern Section of the Geological Society of America. Presentation: Till Fabric Analysis and Origin of Portage Glacier Little Ice Age Moraines, South-Central Alaska.

-The 8th International Conference on Geomorphology (2013) of the International Association of Geomorphologists (Paris, France). Presentation: Till Fabric and Grain Size Analysis of Glacial Sequences in a Complex Paleoglacial System: The Case Study of the Upper Sil Valley, Cantabrian Mountains, Northwest Spain.

-The Bi-Annual Conference (2013) of the Association of Portuguese Geomorphologists (Europe). Presentation: Genesis of the Alto Vez Glacial Valley Pleistocene Moraines, Peneda Mountains, Northwest Portugal.

-The Annual Conference (2011) of the Rocky Mountain and Cordilleran Sections of the Geological Society of America. Presentation: Holocene Glacial Fluctuations in College Fjord, South-Central Alaska.

-The 1st International Conference (2011) of the Portuguese Quaternary Association (Europe). Presentation: Distinguishing Lodgment Till from Melt-Out Till using Till Fabric and Grain Size Analysis: A Case Study in Portage Glacier Little Ice Age Moraines, South-Central Alaska.

-The Bi-Annual Conference (2010) of the Association of Portuguese Geomorphologists (Europe). Presentation: Holocene Glacial History of College Fjord, South-Central Alaska.

-The Annual Conference (2010) of the Rocky Mountain Section of the Geological Society of America. Presentation: Alluvial Terraces of the Lower Mondego River Valley: Product of Late Quaternary Eustatic and Climatic Fluctuations in Central Portugal.

-The Annual Conference (2007) of the Rocky Mountains-Great Plains Division of the Association of American Geographers. Presentation: Late Quaternary Alluvial History of the Mondego River, Central Portugal.

- The 1st Conference (2007) of the Iberian Section of the International Permafrost Association. Presentation: On the Origins of Portage Glacier Little Ice Age Moraines, Alaska.

- The Annual Conference (2006) of the Rocky Mountain Section of the Geological Society of America. Presentation: Quaternary Fluvial Geomorphology and History of the Lower Mondego River Valley, Portugal.

- The Annual Conference (2006) of the Rocky Mountain Section of the Geological Society of America. Presentation: Little Ice Age Glacial Geomorphology and Sedimentology of Portage Glacier, Alaska.

- The Annual Conference (2006) of the North-Central Section of the Geological Society of America. Presentation: Reconstructing Little Ice Age Glacial Histories for Crescent and Amherst Glaciers, College Fiord, Southern Alaska.

- The Bi-Annual Conference (2004) of the Association of Portuguese Geomorphologists (Europe). Presentation: Génese da Moreia Interlobatica de Kent, Ohio.

- The Annual Conference (2004) of the South-Central Section of the Geological Society of America. Presentation: On the Genesis of the Kent Interlobate Moraine, Ohio.

- The Annual Conference (2002) of the East Lakes Division of the Association of American Geographers. Presentation: The Glacial Geomorphology of the Kent Interlobate Moraine, Ohio.

- The Bi-Annual Conference (2002) of the American Quaternary Association (in Anchorage, Alaska). Presentation: Genesis of the Kent Interlobate Moraine, Northeastern Ohio.

- The Annual Conference (2002) of the North-Central and Southeast Sections of the Geological Society of America. Presentation: Genesis of the Kent Interlobate Moraine, preliminary results.

- The Annual Conference (2001) of the East Lakes Division of the Association of American Geographers. Presentation: The Glaciomarine Environment, a review.

List of Publications

Thesis and Dissertation

- Doctoral Degree Dissertation: Fluvial Geomorphology and Quaternary Evolution of the Mondego River Basin, Central Portugal (2009). 307 p.

- Master's Degree Thesis: Glacial Geomorphology and Sedimentology of the Kent Interlobate Complex, Kent, Ohio (2003). 161 p.

Other Publications

-Cunha, L.J., Rochette, A. and Santos, J.A., 2006. *O Alasca em Português. Expedição ao Collee Fjord*. Rua Larga, Revista da Reitoria da Universidade de Coimbra, No. 11, Coimbra, pp. 18–19.

Research Grants

2010-2015

-FCT (Foundation for Science and Technology, Portugal, Europe) individual research grant (€90,000 = ~ \$117,000). Project: Holocene Glacial and Climatic History of Collee Fjord, South-Central Alaska.

2004-2008

-FCT (Foundation for Science and Technology, Portugal, Europe) doctoral dissertation research grant (€51,000 = ~ \$76,500). Project: Fluvial Geomorphology and Quaternary Evolution of the Mondego River Basin, Central Portugal.

2005

-National Geographic Society (Global Exploration Fund) research grant (\$10,000). Project: Holocene Glacial and Climatic History of Collee Fjord, South-Central Alaska.

2004

-Tweedie Family research and travel grant (\$500). Project: Holocene Glacial and Climatic History of Collee Fjord, South-Central Alaska.

Professional Memberships

-GSA (Geological Society of America).

-AMQUA (American Quaternary Association).

-APG (Association of Portuguese Geomorphologists).

Current Research Projects

- Holocene Glacial and Climatic History of College Fjord, South-Central Alaska.
- Quaternary Evolution of the Mondego River Valley, Central Portugal.
- On the Origins of Portage Glacier Little Ice Age Moraines, South-Central Alaska.
- Genesis of the Peneda and Gerês Mountains Late Quaternary Moraines, NW Portugal.

Languages Spoken and Written

- English
- Spanish
- Portuguese
- French
- Italian

Service/Leadership

- Associate Editor in the Journal of Polar Geography (June 2011 to July 2017).
- Scientific Committee Member in the Center for Geographic Studies at the University of Coimbra (Portugal, Europe) (January 2010 to January 2013).

March 19, 2021.

A handwritten signature in black ink, reading "João António Santos". The signature is written in a cursive style with a large, stylized initial 'J'.
